

## Zero Trust Application Access Release Notes

This document is the release notes for InstaSafe Zero Trust Application Access (ZTAA) features to be released on 30th November 2023. This document contains information on enhancements to app.instasafe.io console, ZTAA agent, ZTNA and the gateways which include feature enhancements and bugs resolved. In case of discrepancy between information given in release notes and Product documentation, information given in release notes is to be assumed correct.

### General Notes

- Minor modifications and Bug Fixes not significantly affecting the user experience are not a part of the release notes.
- Multiple bug fixes or enhancements relating to a particular feature are not separately featured in release notes.

### Major Enhancements

Component	Enhancements
Console	<ul style="list-style-type: none"><li>• APIs for user authentication with ZTAA based on the OAUTH2.0 framework to support Single Sign On (SSO) to non-SAML web applications. The feature can be enabled by the Support team.</li><li>• Prompt to the users to enroll in the InstaSafe Authenticator app who haven't configured an authenticator app yet and have OTP configured as the secondary authentication. The prompt will be shown to users after every successful login to the web console.</li><li>• Enhancement to accept user email domain up to 15 characters in length.</li><li>• The User Last Login report is being removed from the Audit report section. The report will be available to be downloaded from Exports.</li></ul>

Component	Enhancements
ZTNA	<ul style="list-style-type: none"><li>• ZTNA version 4.30.0.1: This version of the ZTNA service has performance improvement fixes for Always ON and Full tunnel application access.</li></ul>
